### **20/21/032 Unitary Councillor Report**

- a) The monthly report was circulated prior to the meeting via email.
- b) The 5G trial is still in progress.
  - i) The Council is very busy with Lockdown 3.0 and the vaccination rollout. 2500 Care home staff have been vaccinated and they are looking at now starting to vaccinate the domiciliary carers and personal assistants. The Purbeck Hub is based at Wareham Hospital which covers East Lulworth. The Clinical Commissioning group are given the vaccines and they distribute it throughout Dorset. This has resulted in local clinics unable to foresee how many vaccines they will get at certain times. At present there is only one booked clinic at Wareham, but this will change when more arrive. When the current top four vulnerable groups are done, they will then look at key worker groups such as teachers. It was asked if there has been any news on the mobile clinics. Currently only Pfizer vaccines are being used, which needs to be stored at extremely low temperatures, therefore at present they are unable to run mobile clinics. If people are unable to travel into Wareham, there are networks of people who can help with transport.
  - ii) It was asked what is classed as local when it comes to travelling for your daily exercise, there isn't a limit but it has to be done in a safe and sensible way.
  - iii) There are plenty of volunteers for the Purbeck Hub but they will communicate via social media if they need more people. The Hub has been set up as a ticketing event by using EventBrite, this site can be used by both volunteers and people booking their vaccinations. It was explained that there is intense pressure across the system, part of the reason for encouraging people to stay local is to prevent road traffic

accidents as there aren't any spare hospital beds. **Action:** The link would be forwarded to members of the Parish Council.

**20/21/033 Planning Applications, Planning appeals or Tree Works**

**6/2020/0505- Binford Range, Lulworth Camp, BH20 5QS.** Erection of a 25m Telecommunications Mast together with 4 cabinets, compound fence, 2 transmission dishes and ancillary development.

Noted. **No comments**

**20/21/034 Highways and Footpaths**

**a) Bypass update**

There was a Community Liaison meeting with the MOD, unfortunately Cllr Pinnock was unable to attend. The Parish Council will need to put in a formal request in order for the project to proceed. Cllr Miller will seek advice from the Head of Highways, as there are various cost implications to see whether it can be formally adopted. These include undertaking a traffic survey which involves putting strips on the road to record the amount of traffic and the speed of the vehicles. The major problem is that County has no available money, especially now due to Covid. Another option is to consider reducing the speed limit to 20mph. The criteria for this is laid out in the monthly report. It was suggested to contact Highways for ways to improve speed reduction.

**b) Other Issues**

No other issues were discussed.

The DorsetTogether helpline (01305 221000) for vulnerable people is still available, one of the services that they provide is to signpost individuals to support and help with items such as shopping, prescriptions and access to food.
